

SBS

Soft Ballistic System

Gently spreads your fertiliser without smashing the granules into dust

ZA-M ➤ Precision spreading technology and superb build quality.

Extensions and hopper cover

The hopper volume can be quickly upgraded or retrofitted with the S extension. The narrow S-extension gives you a smaller transport width. Direct filling out of big bags is no problem.

The hopper cover is simply swivelled open before filling. When closed it allows fertiliser spreading to continue, even during bad weather.

ZA-M 1001 Special

STOCKMAN TWO 600kg 600kg

ZA-M 1001 Special
Hopper capacity: 1500 l
Working width: 10 m to 36 m

The **STOCKMAN TWO** is a ZA-M 1001 Special with lights, one extension, OM 10-16 discs and folding hopper cover. Maximum payload 1800 kg.

ZA-M 1501 Special

STOCKMAN THREE 600kg 600kg 600kg

ZA-M 1501 Special
Hopper capacity: 2000 l
Working width: 10 m to 36 m

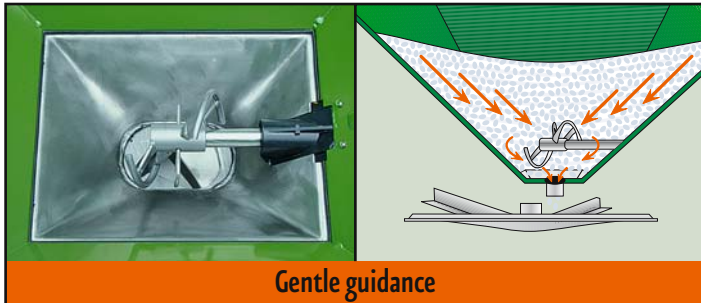

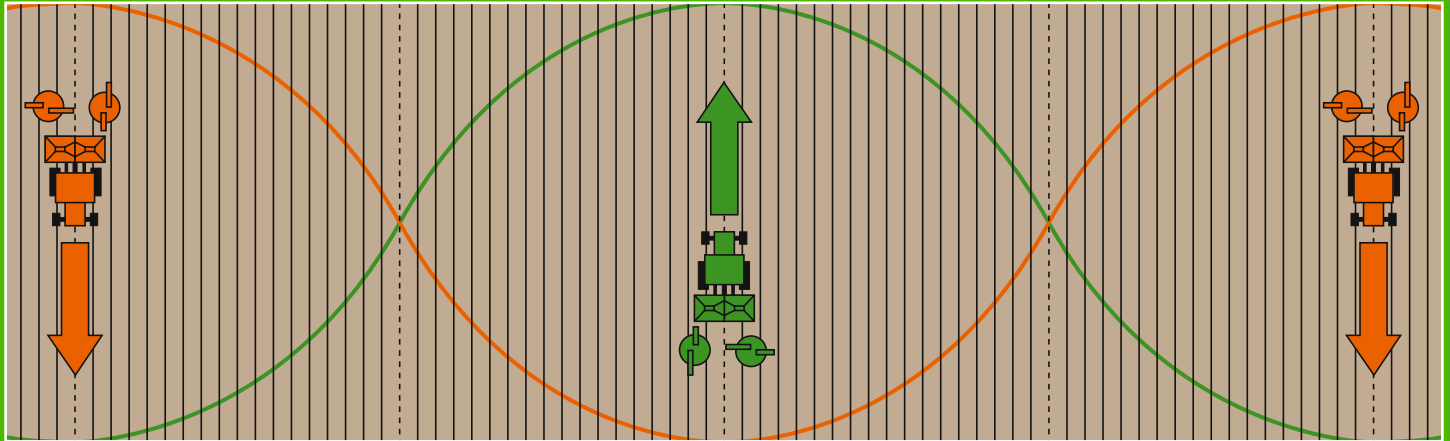

The **STOCKMAN THREE** is a ZA-M 1501 Special with lights, one extension, OM 10-16 discs and folding hopper cover. Maximum payload 3100 kg.

AMAZONE

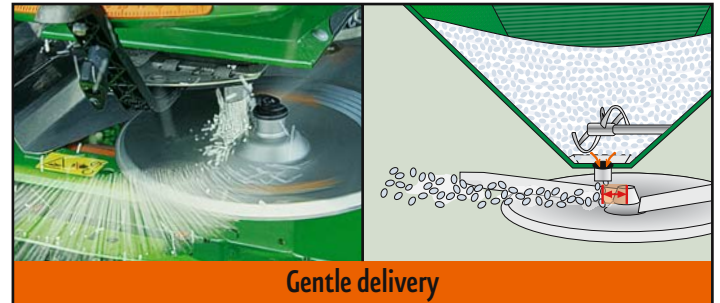

SBS: Gentle on your fertiliser. Cover your fields – not your tractor!

SBS
Soft Ballistic System

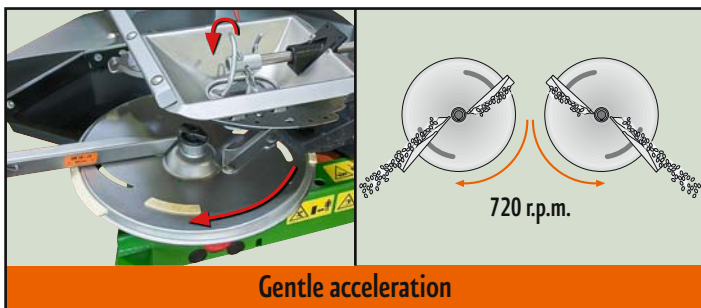

Gentle guidance

The AMAZONE Soft Ballistic System is incorporated into the slow-running agitators which are shaped in such a way that the fertiliser is taken from across the whole width of the hopper alleviating problems of the formation of a fertiliser funnel in the centre of the hopper and maintaining uniform spread pattern.

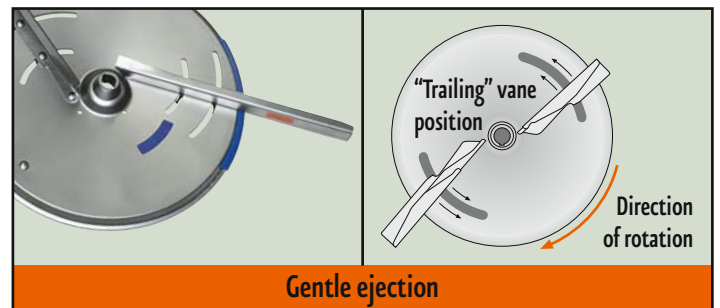

Gentle delivery

The delivery of the fertiliser directly onto the centre of the spreading disc allows a gentle change of direction and soft acceleration of the granules.

Gentle acceleration

The AMAZONE Soft Ballistic System gently accelerates the fertiliser via the spreading discs rotating at only 720 r.p.m. making sure that even very fragile fertilisers keep their spreading properties.

Gentle ejection

With the aid of the AMAZONE Soft Ballistic System the fertiliser is provided with the energy required for the optimum trajectory and a precise spread pattern.
