SmartLearning – Driver training on the App or via a PC

With the "SmartLearning" tool as an App for your smartphone, on-line or as a download version for the PC, AMAZONE offers a useful function to make it easier for you to work efficiently with our machinery and terminals. "SmartLearning" is an interactive training programme which gives drivers the opportunity to familiarise themselves with the operation of the machine before using it for the first time. However, experienced drivers can also refresh their knowledge here, in order to make even better use of the potential performance of their machine.

As an App on the smartphone:

Note: SmartLearning is not a substitute for reading the operating instructions.

Via our homepage as an on-line version or for download:
