

## Safety regulations and information

Smoking is prohibited on the entire company premises, including the car park.

Photography is prohibited on the entire company premises.

Do not leave the specified marked routes.

Persons may only access the areas where the agreed work is to be carried out.

Safety footwear is not mandatory when walking on marked paths on the company premises accompanied by a supervisor from BBG or an AMAZONE employee but must be worn when entering the work areas.

The unauthorised use of company facilities, equipment, means of transport, work equipment, etc. is prohibited.

Safety equipment must not be removed, modified or disabled.

The prescribed personal protective equipment must be used as and when required.

Truck drivers must generally wear a safety helmet in the dispatch area under the crane way.

Driving a motor vehicle on the company premises is only possible after approval. The maximum speed is 10 km/h. Vehicles may only be parked in the allocated parking spaces.

The safety signs (mandatory, prohibition and warning signs, alarm plans and escape routes) must be taken note of.

**These safety regulations and information refer to key areas and are not exhaustive.**

Specific additional instruction and briefing is provided by the supervising BBG employee.
