

AMAZONE

Catros 03

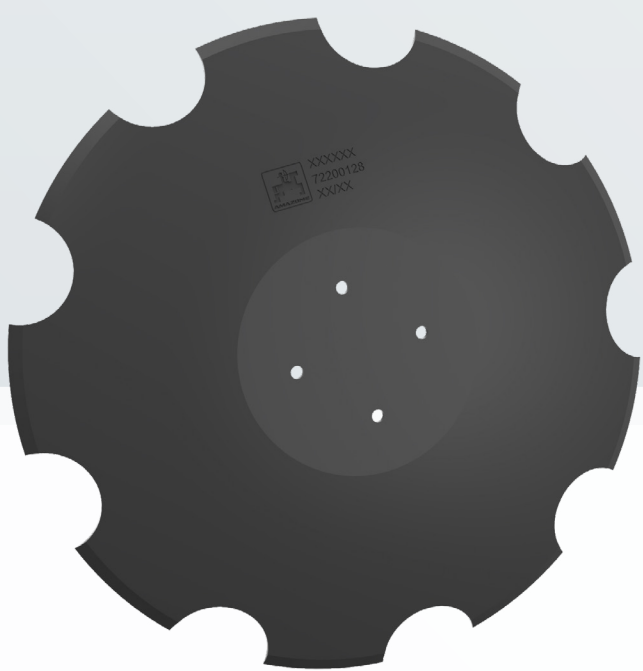

Range of discs

A wide range of discs means that you can spec up the ideal machine for your conditions.

The all-rounder – Catros⁺-03 discs

- ✓ The **510 mm diameter disc** is suitable for working depths from 5 to 14 cm
- ✓ Optimal for stubble tillage and seedbed preparation
- ✓ Can be used in combination with the pro-Pack for the simultaneous application and incorporation of liquid manure and digestate

A true great – Catros^{XL} 03 discs

- ✓ The **610 mm disc** enables working depths from 5 to 16 cm
- ✓ Optimal for incorporating catch crops and grain maize residues
- ✓ Perfect penetration even under the most arduous conditions
