

FTender 1600 with a closed conveying system and pressurised hopper via the sealed hopper lid for high application rates

High output

AMAZONE offers a universal mounted front hopper for versatile use in the shape of the FTender with a capacity of 1,600 l or 2,200 l. The single tipped, mounted front hopper has an aerodynamic shape and allows for good forward visibility. This is useful when driving on roads as well as during turning in the field. The FTender is available in a pressurised hopper version. The advantage of the pressurised hopper lies in higher transfer rates, which is why its use is particularly recommended for bigger rates of fertiliser. The FTender is also available with a split hopper for even more permutations whilst sowing.

ISOBUS machine control – fully integrated or independent!

The machine control on the FTender takes place via ISOBUS. This means that the mounted front hopper can be easily operated intuitively and with all the advantages of ISOBUS communication. The FTender can therefore either have its own complete ISOBUS electronic system (ISOBUS autonomous) or be integrated in the electronic system of the sowing system behind (ISOBUS integrated).

Large opening of 1.1 m x 2.2 m for quick and easy filling of the FTender

One machine for many aspects of arable farming

The FTender from Amazone can be used with a variety of connected implements across a wide range of applications. Coupling and uncoupling is quick and easy thanks to the quick-release connectors on the hose pack.

Model	Capacity (l)	Hopper (m)	Conveying system
FTender 1600	1,600	single-tip	closed
FTender 2200	2,200	single-tip	closed
FTender 2200C	2,200	twin-tip	closed

For those who want more – FTender:

- ✔ Modular software and hardware for use with different connected implements
- ✔ Conveying systems for AMAZONE seed drills and precision air seeders for sowing cereals, rape, maize, beet or with soil tillage machinery for sowing catch crops and for deep fertilisation
- ✔ Overpressure system for optimum delivery rates
- ✔ Large hopper capacity for long periods of use
- ✔ FTender with tyre packer and/or additional weights

FTender 2200C with a split hopper for even more flexibility in sowing
