

AMAZONE

PRECEA-A PRECISION AIR SEEDER

The special harrow-mounted model –
Uncompromisingly precise

- › Forward speeds of up to 15 km/h
- › Accurate seed placement due to excellent overpressure singling with a short propulsion channel
- › Simple and tool-free exchange of the centralised singling disc, even with a full seed hopper
- › Even spacing due to the catcher roller
- › Simple and intuitive operation via ISOBUS possible
- › Singling system
Accurate seed placement,
more profit

Tailor-made drilling systems from the
world champion in combinations
